COMPUSAFE

Attention: Ian Colls

Dear Mr Colls,

We refer to the three break-ins experienced at the Corobrik Centre, Pinetown, late last year, resulting in the loss of four computers, and the subsequent installation, by your company, of the “Compusafes”.

We must advise that our centre was again broken into over the past weekend, and this time no equipment was lost.

It is our belief that this was due to the fact that our computers are now effectively locked up, and the perpetrator saw that there was no way they could attempt to remove any computers before the arrival of the armed response.

Yours Sincerely,

**Roland Mitchell
Centre Manager
Corobrik Centre, Pinetown**
